Prefatory Note

ART INDEX is an author and subject index to domestic and foreign art periodicals and museum bulletins. Subject areas indexed include archaeology, architecture, art history, arts and crafts, city planning, fine arts, graphic arts, industrial design, interior design, landscape design, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advise the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

Suggestions for additions or deletions of titles should be brought to the attention of the Committee in care of The H. W. Wilson Company.

Explanatory Notes

ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Division of major subject headings (such as **ART**) are filed within the following sections: (1) General subdivisions (**ART—Themes**), (2) Chronological subdivisions (**ART—17th century**), (3) Geographical subdivisions (**ART—Spain**), (4) Inverted headings (**ART, Italian**), (5) Phrase headings (**ART and state**).

BOOK REVIEWS

Following the main body of the index, there is a listing of citations to book reviews.
